PVC Conduit SCH.40 Fittings End bell

The PVC end bell fitting is designed to terminate conduit runs cleanly while protecting wire entry points and maintaining conduit integrity. Its straight-end design provides a smooth, professional finish for electrical enclosures and underground applications.

- Molded from high-strength, weather-resistant PVC
- Straight-end design for compact installations
- Suitable for use with Schedule 40 and Schedule 80 PVC conduit

• Compliance:
ETL Listed for safety and code compliance
